### EXPERIENCE

#### **Devifix** - Full Stack Web Developer

November 2022 - PRESENT

- Designed and Developed "Devifix": an order platform that allows users to connect with each other, create offers and order offers. The web application was built on Django. The frontend was created in HTML5, CSS3, JS and SASS.
- Developed web application back-end components and communicated with clients to identify their needs and goals.
- Created a user verification system with email OTP. The site is User friendly and made for desktop only.
- Maintained large databases, configured servers and handled site hosting.

---
